

# ARIA<sup>+</sup> - Mega White allows superior color contrast and copy/print performance in modern office machines.

## Description

ARIA<sup>+</sup> is designed to reproduce sharp, crisp text and graphics through today's modern sophisticated printing and copying equipment. The matt uncoated surface, which is reflex-free, is excellent for non-strenuous reading.

## Benefits

- Made from renewable PEFC accredited fibers
- Improved bulk and opacity for duplex printing
- Jam Free
- Precise cut edges; straight out of ream and into printer

## Environmental

ARIA<sup>+</sup> is made from renewable PEFC accredited pulp and locally grounded calcium carbonate is used as filler, reducing wood fiber usage. ARIA<sup>+</sup> is produced by an ISO14001 certified mill.

## Production

- ARIA<sup>+</sup> is produced using Elemental Chlorine Free pulp.
- Ream: Paper/Polypropylene
- Box: Kraft
- Pallet: Plywood
- Shrink-wrap: Polyethylene
